Sergey Mechtaev

Lecturer (Assistant Professor), University College London

Address: Department of Computer Science, University College London,

Gower Street, London WC1E 6BT, United Kingdom

Office: Room 5.02, Malet Place Engineering Building

Office phone (internal): 30319

Email: s.mechtaev@ucl.ac.uk
Personal email: mechtaev@gmail.com
Website: http://mechtaev.com
Mobile phone: +44 (0)79 3560 2279

Last update: February 2019

RESEARCH INTERESTS

- **Software engineering**: automated program repair, software testing.
- Formal methods: symbolic execution, constraint solving, software verification.
- Programming languages: program synthesis, program analysis.

EDUCATION

• National University of Singapore, School of Computing

Doctor of Philosophy

Thesis: Semantic program repair; Supervisor: Abhik Roychoudhury; GPA: 4.4

• Saint Petersburg State University, Mathematics & Mechanics Faculty

Specialist

Thesis: Generic programming library for OCaml; Supervisor: Dmitry Boulytchev; GPA: 4.7

Saint Petersburg, Russia September 2006–July 2011

August 2012-July 2018

Singapore

EMPLOYMENT

• University College London

Lecturer

Software System Engineering group, CREST centre

National University of Singapore

Research Assistant
TSUNAMi centre

• Fondazione Bruno Kessler

Intern

Research Unit in Embedded Systems

• Lanit-Tercom, Inc

Software Developer

HaSCoL hardware-description language

• 000 Dvin

Software Developer

Video surveillance software startup

London, United Kingdom

February 2019–Present

Singapore *March 2017–January 2019*

Trento, Italy

February 2016–June 2016

Saint-Petersburg, Russia May 2010–July 2012

Saint-Petersburg, Russia

June 2009-April 2010

PROJECTS

GitHub: https://github.com/mechtaev

- **Angelix**: the first constraint-based program repair system that scales to large real-world programs. Angelix generated a patch for the well-known Heartbleed vulnerability; it has been downloaded by researchers from over 60 institutions, and has been used in several projects including an intelligent tutoring system at IIT Kanpur. http://angelix.io
- **program-repair.org**: a community-driven website on program repair that was initiated and designed by me. Since its release, researchers from 7 institutions have contributed to this website; it has 200-300 unique visitors per month. http://program-repair.org
- **ocaml-syb**: an adaptation of Scrap Your Boilerplate approach for OCaml. This library has been used in the compiler of HaSCoL hardware-description language. The prototype is available here: http://oops.math.spbu.ru/syb-ocaml/

Supervision

MSc co-advisor

• Edwin Lesmana Tjiong

National University of Singapore

2017-2018

SysProg'11

Thesis: Use of Repairs Tool to Fix Security Vulnerabilities

TEACHING

• CS4218 Software Testing and Debugging Teaching Assistant National University of Singapore January 2015–May 2015

TALKS

• Semantic Program Repair University College London

London, United Kingdom *July 2018*

• Semantic Program Repair Using a Reference Implementation
International Conference on Software Engineering 2018

Gothenburg, Sweden *May 2018*
