Sergey Mechtaev

Lecturer (Assistant Professor), University College London

Address: Department of Computer Science, University College London,

Gower Street, London WC1E 6BT, United Kingdom

Office: Room 3.02, Engineering Front Building

Email: s.mechtaev@ucl.ac.uk Personal email: mechtaev@gmail.com Website: https://mechtaev.com Mobile phone: +44 (0)79 3560 2279

Last update: January 2023

RESEARCH INTERESTS

- **Software engineering**: automated program repair, software testing.
- Formal methods: symbolic execution, constraint solving, software verification.
- Programming languages: program synthesis, program analysis.

EDUCATION

• National University of Singapore, School of Computing

Doctor of Philosophy

Thesis: Semantic program repair; Supervisor: Abhik Roychoudhury; GPA: 4.4

• Saint Petersburg State University, Mathematics & Mechanics Faculty

Specialist

Thesis: Generic programming library for OCaml; Supervisor: Dmitry Boulytchev; GPA: 4.7

Saint Petersburg, Russia September 2006–July 2011

August 2012-July 2018

Singapore

Singapore

EMPLOYMENT

• University College London

Lecturer

Software System Engineering group, CREST centre

National University of Singapore

Research Assistant

TSUNAMi centre

· Fondazione Bruno Kessler

Intern

PROJECTS

GitHub: https://github.com/mechtaev

- Modus: Modus is a language for building Docker/OCI container images. Modus uses logic programming to express interactions among build parameters, specify complex build workflows, automatically parallelise and cache builds, help to reduce image size, and simplify maintenance. https://modus-continens.com/
- **Angelix**: the first constraint-based program repair system that scales to large real-world programs. Angelix generated a patch for the well-known Heartbleed vulnerability; it has been downloaded by researchers from over 60 institutions, and has been used in several projects including an intelligent tutoring system at IIT Kanpur. http://angelix.io
- **program-repair.org**: a community-driven website on program repair that was initiated and designed by me. Since its release, researchers from 7 institutions have contributed to this website; it has 200-300 unique visitors per month. http://program-repair.org

Supervision

• Nikhil Parasaram (PhD)

First supervisor. Second supervisor: Earl T. Barr

Thesis: TBA

• Liu Yu (PhD)

Co-advisor. Other advisors: Abhik Roychoudhury, Emmanuel Letier

Thesis: TBA

SERVICE

Organiser:

- o International Workshop on Automated Program Repair (APR) co-located with ICSE 2023
- o International Conference on Software Engineering Student Research Competition (ICSE SRC) 2022
- o International Workshop on Automated Program Repair (APR) co-located with ICSE 2022
- o International Workshop on Automated Program Repair (APR) co-located with ICSE 2021
- $\circ~62^{nd}$ CREST Open Workshop (COW) on Automated Program Repair and Genetic Improvement 2020
- o International Workshop on Automated Program Repair (APR) co-located with ICSE 2020

Program committee:

- o International Conference on Software Engineering (ICSE) 2024
- Symposium on the Foundations of Software Engineering (FSE) 2023
- o International Conference on Automated Software Engineering (ASE) 2019, 2020, 2021
- o International Conference on Software Engineering Demonstrations (ICSE-Demo) 2022
- Symposium on the Foundations of Software Engineering Doctoral Symposium (FSE-DS) 2022
- International Conference on Automated Software Engineering Student Research Competition (ASE SRC) 2021

Reviewer:

- o Transactions on Software Engineering (TSE) 2017, 2018, 2019, 2021, 2022
- o Empirical Software Engineering (EMSE) 2017, 2018, 2019, 2020, 2021, 2022
- o Transactions on Software Engineering and Methodology (TOSEM) 2018, 2019, 2020, 2021, 2022
- o Journal of Software: Evolution and Process 2022
- o Science of Computer Programming 2020
- o Formal Method in System Design (FMSD) 2020
- Subreviewer:

- o International Conference on Automated Software Engineering (ASE) 2013
- o International Symposium on Software Testing and Analysis (ISSTA) 2015
- o International Conference on Software Testing, Verification, and Validation (ICST) 2017
- o Symposium on the Foundations of Software Engineering (FSE) 2017
- o International Conference on Tools and Algorithms for the Construction and Analysis of Systems (TACAS) 2019
